# Interception, Evasion, Battle Preparation

Interception and evasion

### Interception: success on ≥8 or natural 10

- ±? Manoeuvre differential
- +1 if technology counter has an advance of 6 cases or higher
- +1 If the target province contains a friendly force/city
- -1 From or to swamps (-2 if both) or from Flooded province
- -2 Through mountain pass, river or bad weather
- -2 If the target province contains an enemy force
- -1 If interceptor was besieging or blockading at current or previous round
- +1 If intercepting in the same province/sea zone or with Three-decker
- or +2 if intercepted Fleet will make a Debarkment in same sea zone, or same province as port, or adjacent sea zone from arsenal
- or -3 If interceptor at port (except arsenal)

#### Præsidios: roll 1d10+fortress level+1 if F

- Strait fortifications: as level 2 in Europe, level/2 (round down) in ROTW.
- **Result:** >9 End of move, >11 Loss of  $1N\mathbb{D}$ , >13 Loss of  $2N\mathbb{D}$

#### Retreat before battle, escape blockade: success on $\geq$ 8

- +M Manoeuvre differential, only if positive
- +1 If blockading fleet smaller
- +1 If blockading fleet is not NGD, nor 74s tech.
- Result≤5 Forced battle possible (blockade)
- Automatic success if retreat in fortress (max. 1LD per level, 1LD in a fort)
